What makes the Metabolic Kickstarter program different?

Stephanie H - 2020-02-20 - in Differences between Programs

In this program we have removed every obstacle to success, so there are no excuses.

They are high energy quality videos with bodyweight exercises, no equipment.

Each day of the week builds upon the last and there are modifications if you need them.

It gets harder every week, so that you get more results over time. It's always changing so you won't hit any plateaus.
