When should I take Daily Energy?

Stephanie H - 2020-02-20 - [Daily Energy](#)

Thank you so much for choosing Daily Energy. It is the best decision you can make for your health today.

The best way you can use Daily Energy in your fat burning, all-day-energy-boosting diet is to drink Daily Energy in cold water first thing in the morning on an empty stomach.

If you exercise in the morning, begin your workout 15-30 minutes after drinking Daily Energy.
